

# Phase 4

## Restaurant

**Please help all of us to keep Covid-19 down by following all of these procedures:**

Indoor spacing will be available, please do not move tables as they are spaced according to State of Illinois guidelines.

Please call ahead for a reservation, walk ups cannot be guaranteed a spot and will be asked to wait on their car until a table opens up.

Kacey's will need your name and telephone number (email if you have one) for contract tracing if needed in the future.

The restaurant will be moved into the whole hall of the banquet hall for adequate social distancing. Please maintain social distancing while in the restaurant.

Before being seated and/or your order to be taken, we will need to scan you for your temperature. This is to ensure our Indoor dining/drinking patrons are safe. If you have an elevated fever, we might ask you to not dine/drink with us for everyone's safety today.

Check out our new menu (no buffet) but we will be happy to serve you at our salad bar, fill out a slip and you can watch us prepare your salad, homemade soups, and favorite sides.

All menus will be laminated, for your safety.

While dining at Kacey's only disposal plates, cups, utensils, and individual seasoning packets will be used.

The restaurant will be open for all ages, so bring your family. Parties are limited to 10 persons per table.

When out celebrating another year, join us at Kacey's Restaurant one week before or after your Birthday, you will receive your age percentage off your dinner. For Example: if you are 50 years old you will get 50% off on your dinner. It is only good for the person having their Birthday.

Kacey's will be disinfecting all "high touch" common areas (door handles, tables, door plates, chairs restrooms, menus etc) for your safety.

We are hope that you will enjoy your dining experience here at Kacey's and join us again next week!
